

Wiltshire Community Wind Energy

Wiltshire Community Wind Energy are a voluntary group who believe that appropriately sited wind turbines are part of the solution to climate change. We want to help promote one or more wind farms in the right place in Wiltshire with community support.

Our first meeting will be held at 7pm at Bridge House, Stallard Street, Trowbridge BA14 9AE on Tuesday 27th May 2008.

Please email info@wiltshirewind.org.uk or call 07816 029901 (leave a message) or visit our web site for details
